

As a working flight attendant I am writing to ask that cell phones NOT be allowed for use on any aircraft except when on taxi. Use of cell phones while in flight would be a disaster ! making the job of every flight attendant , safety for passengers , even that much more difficult. Imagine trying , as the only flight attendant , to evacuate a plane of 47 passengers as they talk on their phones not following life saving commands.

Please reconsider the use of cell phones and do NOT allow it to happen.

Thank you ;

Michele Stephens - flight attendant American Eagle Airlines
